One of the sides will be captained by J. W. Cromwell, who figured so creditably in the late matches between the Third and Sixth Auditors' offices. He has a fine following and a strong opposition. An in-teresting and exciting match may be expected.

Cutting Up An Iron-Clad. Workmen are now engaged in cutting up the iron-clad torpedo-boat Piscataqua at the navy yard. This vessel, with her prototype, the Herr, has been moored at the coal wharf in the stream since the war. Thus, one by one the implements as well as the men that aided in crushing the rebellion sre passing away. After the Piscataqua is cut up the Hero will share the same fate.

Henerably Discharged. The case of the United States against Mr. E. V. Anglim, who does business on F street, and who was charged with receiving as stolen goods who was energed with receiving as stolen goods awe law books, the property of Pike & Johnson, attorneys-at-law, in this city, was called yester-day morning in the Police Court. There being so testimony whatever implicating Mr. Anglim, his coursel, Mr. James P. Turton, ed., moved his discharge, and Judge Snell so ordered.

In Memeriam. Yesterday the solemn obsequies of Ann Eliza beth Murphy, the young and beautiful daughter of Mr. Charles A. Murpny, well-known by many friends in Washington, were celebrated in Balt more. After the funeral her body was taken to more. Alter the timeral her loody was taken to Wilmington, Deliaware, for interment. In his treparable loss Mr. Murphy's friends deeply sympathire, and they extend to him every consolation within their power and all that is involved in the great fact that what is his loss is his daughter's sternal gain, in that land where all is peace, happiness and love.

SWALLOWING THE PILL. The "Galoots" Grab Bill-The Verdict to

Stand. It seems as if the verdict in the legislative feed bill case will remain undisturbed, as there were bill case will remain undisturbed, as there were ne exceptions noted during the trial, and no motion for a new trial has been entered since—the four days' limit for the same having expired. What gives color to that supposition also is the fact that 'Campbell's counsely esterday notified Godfrey's counsel that he would on Saturday next file a motion to retax the costs in the case, a proceeding brought about by the alleged extravgant bills presented by witnesses for both sides.

West End Literary Association. Saturday evening last the West End Literary Association met at the residence of Mrs. Byrne, en Nineteenth street, Dr. Shafer acting as president. The reading was very fine. Miss Macforce read a beautiful Italian poem, Miss Byrae rea-dered a fine piece, and Miss Helen Paulding read dered a fine piece, and Miss Helen Paulding read an original poem, the composition of Mr. C. Bradford Steele, which caused considerable mirth and applause both from the poem itself and the excellent manner in which it was read. Mossrs A. K. Parris and W. C. Bestor also contributed largely to the evening's enjoyment by their reading.

Those present were the Missen Lawrence Carrie Paulding, Embrey, Hestor, Pellune, West, Stewart and Niles, and Messrs. S. L. Heap, of New York, Adams, Duncan, Stule, Addison, Penet, W. Parris, and a number of others.

This society is in a fourishing condition, and is quite a formidable rival to that of Mr. Horatio Eing. It has our best wishes.

Election of May Queen at Prof. Sheldon's. The disciples of Terpischere were out in full bree last night at Prof. Sheldon's academy, 1004 F street, the occasion being the annual election of May Queen. After tripping the "fantastic toe" for an hour or so, the genial Professor called the assemblage to order, and announced that they would now proceed to elect the Queen of May, at the same time remarking that none but scholars would be entitled to vote, and proceeded to call the names of the scholars from a list which he had prepared. Mr. Davis and another gentleman, whose name we failed to learn, were selected as judges, and performed their duties satisfactorily. When the result was announced it was ascertained that Miss Mary E. Kealey, a most beautiful and amilable young lady, had been elected almost unanimously, receiving all the votes cast but six, and accordingly she was the recipient of many hearty congratulations. The Maids of Honor selected were Miss Annie Clark, Miss Maggle Walsh, Miss Elina Hart and Miss Mattle Gartrell, all handsome and accomplished young ladies. After the election the Professor anneanced that the May ball would take place on Friday, May 21. Dancing was then resumed and continued until 11 c'etock, when all separated, well pleased with the svening's entertainment. TRANSFER OF STOCK. Building Association Case-Important De cision of Judge Wylie Yesterday. A building association case was decided by Jus-tice Wylie in the Equity Court yesterday, of A building association case was decided by Justice Wylle in the Equity Court yesterday, of which the following are the particulars: In October, 1872, P. H. Welch, secretary of the National Capital Real Estate Building Association, together with the treasurer, certified that the sum of 880 had been paid on twenty certificates of stock, whereupon the Prankin Cooperative Building Association, advanced on these certificates are said other securities \$8,000, a total of \$2,000 advanced. In February, 1874, the stock was formally transferred to the Franklin association, but Welch having given notice in 1872 of its surrender no dura were paid on it by the Franklin in 1874 the secretary of the latter association gave notice of its surrender, and the National association refusing to redeem the Franklin filed a bill in equity in September last to compel them to do so. The defendants answer set up that the stock was issued by Welch without authority, and was fraudulent, whereupon issue was taken on this answer, and a mass of testimony sticited. Judge Wylle held that the defendants were estopped by the act of their secretary, (Mr. Welch,) and were bound to redeem, and accordingly passed a decree to that effect, thus deciding that the stock of a building association, fraudently or irregularly issued by one of its own officers, is valid in the hands of an ionocent holder as against the association. R. K. Elliott, for plaintiff, and M. D. Ball, for defendant.

HORRIBLE DEATH OF A CHILD. Its Head Crushed by a Street-Car Wheel-In-

quest and Verdiet. An account was published in yesterday's NA TIONAL REPUBLICAN OF a sad accident eccurring on New York avenue, between Twelfth and Thir-teenth atreets northwest, in which a little white boy, named Willie Krause, between four and five years of age, was run over by car No. 8, John Selby, driver, of the Columbia Railway Company, crushing his body and otherwise injuring him. Dr. Bliss was called in and dressed the wounds,

crushing his body and otherwise injuring nim. Dr. Elliss was called in and dressed the wounds, but the little fellow gradually sank and died about 1:20 o'clock yesterday morning. Officer Russell, of the Sixth precinct, followed the driver to the terminus of the road, and there arrested him to answer for the accident. Coroner D. C. Patterson, on being notified of the child's death, decided to hold an inquest, which he did at 11 e'clock.

Dr. Z. T. Sowers was the first witness, and testified to the terrible injuries received by the child, and that the cause of death was injury to the brain, caused by the separation of the bones at the base of the skull.

Dr. James T. Young corroborated the testimony of the first witness, and suggested that the jury request the police to notify the drivers of street cars to walk their herses across the intersections of streets, as it was in such places that accidents occurred; this was one instance of it. He had spoken to Major Richards on the subject, and he stated that if the jury recommended it he would cenfer with the management of the roads in relation to adopting some such rule.

William Hunter testified that on Monday he was on the corner of Thirteenth street and New York avenue with a party; saw a car going eastward and one boy cross the track, and deceased fall, as he attempted to follow, in front of the horse about eight or ten feet; the car ran on the boy, and witness and his companion assisted to shove the car back. If the boy had not fallen he

fall, as he attempted to follow, in front of the horse about eight or ten feet; the car ran on the boy, and witness and his companion assisted to shore the car back. If the boy had not fallon he could have crossed easily before the car got up to him; he was not conscious when picked up, and said nething; the car was going at a fair gait, not unusually fast; did not notice the driver attempt to stop the car; don't think the horse struck the boy; it was the front wheel on the south side; the horse was turned to the left. At the point where this accident occurred the grade is down slightly. Mrs. Mary A. Small, a passenger, testified that she did not see the boy until after he was hurt; the driver did what he could to save him by turning his brakes down; the driver was looking down Thirteenth street at the time, but acted so promptly as to attract her attention at the time; he was not driving fast; the boy was crying when he was picked up. The car was jolted considerably, so quickly did the driver apply the brakes. Several other witnesses gave testimony as to the slow speed the car was moving, and that the driver was looking in another direction, and that when he naw the boy's peril he promptly did all he could to check the car.

Mr. Henson, superintendent of the road, testified that this driver was one of the most careful on the road.

Mr. H. A. Willard said in regard to the sur-

fied that this cirver was one of the most circum-on the road.

Mr. H. A. Willard said in regard to the sug-gestions of Dr. Young, that there was another matter which should be looked after, vir. Large boys, who should know better, who persist in hanging about the cars, leading on smaller ones; jumping on them and placing stones on the track. Larger boys were generally guilty of hanging about the cars. about the cars.

THE VERDICT.

The jury rendered the following verdict: "That death was caused by reason of injurier received in being accidentally run over by by ear No. 8 of the Columbia Hallroad Company. The jury, in view of the frequent accidents, would recommend that the District authorities take such steps as will prevent driving cars laster than a walk whilst crossing the streets and avenues in the city." The president, Mr. Willard, while feeling that the driver was in no ways to blame for the acci-dent, very generously on the part of the com-pany tendered to the afflicted family any sid that the company could render, and also engaged physicians to attend the child.

ACADEMY OF SCIENCE.

Annual Meeting-Reading of Important Scientific Papers. The annual meeting of the National Academy of Science was held yesterday noon at the Smith-sonian Institution. Professor Joseph Henry presided, and Professor J. E. Hilgard secretary There were present the following members of the society: From Yale College, Professors Ellas Loemis, O. P. Marsh and B. Silliman; Dr. J. H. Trumbull, el Hartford; President Barnard, of Columbia College, New York: Professor J. S. Newbury, do.; Professor A. M. Mayer, Stevens Institute of Technology, Hoboken; Professor A. Gayot, of Princeton College; Dr. John L. L. Coate, of Philadelphia; Professor J. P. Lesley, director of the second geological survey of Pennsylvania; Professor George H. Hill, astronomer, Nyack turppise; Washington members, Professors Henry, Baird, Hilgard, Newcomb, 67ill, Schott. Fewell, Lane, Hayward, and Dr. Woodward, U. S. A.

The attendance of those outside of the members was not large, there not being over fifty persons present.

The first subject considered was the "Results derived from an examination of the United States weather maps for ist2-74," by Professor Loomis. He explained graphically on the blackboard the courses of storms, temperature, &c., which was well received by his hearers.

Professor Hilgard expressed himself as being much pleased with the explanations, particularly that person Guyot, J. P. Lesley and Professor Henry made brief remarks on the subject. The latter claimed, in regard to temperature, that a change must take place during a current from all directions. A current from the north, mingting with that from the south, might give a colder temperature. He spoke in the highest terms of the investigations made by Professor Leomis, and thought the whole subject was one of great importance.

The Smithsonian institution is busily working out the results of twenty years' investigation of the subject, which will soon be ready for publication.

The next subject considered was by Prof. J. P.

the subject, which will soon be ready for publication.

The next subject considered was by Prof. J. P.
Lesley, "A sketch of the progress of the second
survey of Pennsylvania." Maps showing the surveys were exhibited and carefully explained by
the Professor, who made all the necessary portraying of the topography of that State. He referred to the oil regions, and stated that very
strong objections were made to surveying those
localities until the price of oil became higher. At
the present time the State of Pennsylvania pays
more to get the oil than is received from the bale.
At the present time there is a triangular fight
going son which makes the State a heavy loser.
He referred to other difficulties encountered in
making surveys, and spoke particularly of the
anthractic coal regions, where the strongest objections were raised. The survey has given much
information in regard to the condition of the oil
rock. He next explained a drawing of Fairmount
Park, of Philiadelphia, and showed that there
was no more known about the geology of Philadeably at the present than there was fit was as was no more known about the geology of Phita-delphia at the present than there was fifty years ago. This spring surveys will be made of south-western and northwestern Pennsylvania, which will be exhibited at the next meeting of the so-ciety. ety. The drawings exhibited by Prof. Lesley, as well

as his explanations, were interesting and well received.

The secretary announced the following subjects for consideration to-day: On the orography of the Catakili mountains, by A. Guyot: on the observation of contacts in the transit of Venus and Mercury, by S. Newcomb; notes and observations of the transit of Venus, by G. Davidson; geographical distribution of North American batrachia and reptilia, by E. D. Cape; on the improvement of the present civil er Gregorian calendar, by J. P. Bradly.

The meeting then adjourned until te-day.

DISTRICT TELEGRAPH COMPANY.

Some of the Uses of this Important Institu One of the latest additions to literature is a small pamphlet issued by the "American Dis-trict Telegraph Company," of the District of Columbia, setting forth the object of the company and the conveniences it offers to the public, at home and in the business office. The company is not putting into operation a new system, but is only inaugurating in Washington the system that not putting into operation a new system, but is only inaugurating in Washington the system that has been in vigerous and successful operation in the cities of New York, Brooklyn, Philadelphis, Uhicago, St. Louis, Buffalo, Jersey city and Baltimore. The handiness of such an arrangement as they offer cannot be questioned. If a man gets up in the morning with that glum feeling that all mertals are subject to, he can grind a little while on the machine and have instantly at his disposal a healthy man, whom he can swear at or will swear for him, or who, at a little extra expense, will probably be willing to be kicked down stairs. Thus the subscriber will be able to go to breakfast with a cheerful heart, and will avoid little domestic squabbles over coid pancakes or an overdose of maleratus, which would otherwise be liable to occur.

Among other things they say their messengers can de, they can be sent in search of a husband, or for a plastorer; they keep a force of trained men to wheel baby carriages, or to borrow washboilers; to buy a pack of cards, orgo to Godfrey's for a bottle of "stag." The cid way was to have a sleepy boy around the house, always getting into everybody's way, except when he was wanted, when after half an phour's search, the would be found up the alley enthusiastically chering a dog fight or trying to strike a bonanus in somebody's ash-heap. But under the new plan, by playing a couple of notes on an imaginary hand organ, a spruce young messenger, with red tape on his pants and a winning face, intily up to his business, appears ready to run after a runsway pair, inquire after the bealth of your rich maiden aunt, or attach a piece of tinwer to the tail of a troublecome dog. Such is the progress of the nineteenth century.

A PROMPT ARREST.

Baltimore Thieves Captured in this City. Yesterday morning Chief Detective Clarvoe received a postal card from Mr. Wm. Crone, chief of the Baltimore detective corps, stating that on Sunday night sneak thieves entered a house in that city and stole a white-faced English gold watch, a lady's gold hunting-case watch, a plain gold chain and two garnet rings, and there was good grounds for supposing that the parties had started for this city. The case was taken in hand started for this city. The case was taken in hand by Detectives McDevitt and Coomes, and within an hour they succeeded in recovering the precenty, most of which had been left in a pawnbroker's establishment. About 16 o'clock, with the assistance of Officer Luskey, they arreated at the corner of Seventh street and Pennsylvania avenue three suspicious characters, who were taken to police headquarters, where on examination a portion of the stolen leweity and about \$10 in money was found on the person of one of them. They gave their names as Robert Stratton, (see, McConnell and Matt Burns. The authorities of Baltimore were notified, and in the afternoon Detectives Mitchell and Shafer came over and took them to the Menumental City, where they will have an examination to-day.

TBASE BALL. Team of the Rosedale Club-The Resedule base ball club have fully reorganized for the season of 1875 with the following strong team: G. Handy, first base; C. Paxton, short stop; W. Wood, right field; F. Nolan, econd base; Major, catcher; Paige, third base; second bass; Major, catcher; Paige, third base; J. A. McCook, pitcher: W. Kearney, left field; H. McArdle, centre field. Officers: G. A. Traylor, manager; J. A. McCook, captain; Wm. Allen, treasurer. Sir of the above players composed the best part of the club last year. Mr. diajor, the catcher, played on the Eagle club, (junior champtons,) last year. Mr. Paige played on the Easton, of Pennsylvania, being a very effective pitcher, in which position he will assist McCook the coming season. All junior clubs playing for junior champtonship will please give the Rosedale their early attention.

Suggestions From One of the Defeated. One of the Third Auditor's class in the recent spelling match, in a communication, objects to the mode in which the contests are decided. He says: mode in which the contests are decided. He mays:

"It is absurd to regard them as the tests of the
knowledge of the English language possessed by
the spellers. Mixtakes and misunderstandings
will occur, which cannot at the time be explained,
and one such mistake may deprive the side for
the remainder of the evening of the aid of the
best spellers." This point is illustrated by the
fact that one of them "was ruled out at the very
commencement of the contest by spelling 'ozydine' with a 'y,' though this is the mode of spelling the word which was adopted by Dr. Webster,
and which is found in all the dictionaries published under his name until changed by Prof.
Goodrich to 'oxidiae.' Mr. Jackson, being familiar with the original Websterna spelling, had
a right to suppose that this would be retained, at
least, as a variation in the late editions. But it
has disappeared altogether." In conclusion he
says "the only true method of testing the spelling ability of two classes is to have all the words
given out written by the spellers. This cannot,
of course, be done before a public audience; but
1, for one, would like to have a trial of this kind
between a chosen number of the cierks of this
and of the Sixth Auditor's office."

DISTRICT NOTES.

Improvement of the Aqueduct Road Objected to-Orders have been issued for laying a 15-inch pipe sewer on the west side of Thirteenth street, between T and V morthwest, and a 12-inch pipe sewer on the south side of V street, between Thirteenth and Fourteenth.

President Gorman and Mr. J. G. Berret, of the Chesespeake and Ohio Canal Company, had an interview with the Cemmissioners yesterday for the purpose of entering a protest against the construction of a parapet wall on the supporting walls of the berm bank of the canal, between the aqueduct at Georgetown and Chain bridge, for the protection of travelers upon the road. The Commissioners have made a contract with Mr. Chipman for this work, and Mr. Gorman thinks it will interfere with the canal business, as in consequence of the large number of boats arriving during the busy season the company are obliged to tow their boats on the borm or north side, the other being filled with leaded boats awaiting a discharge of cargo. A conference of the canal company with Engineer Hoxie was determined upon, when an inspection of the premises will be made by these officers with the view of adjusting the conflicting interests. sewer on the south side of V street, between

MARRIAGE AND DIVORCE.

Marriage Licenses. The following marriage licenses were granted yesterday:
John H. Hancock and Kate K. Cox, of Charles county, Maryland; Wm. F.Crumburg and Annie Keller, James Connors and Catharine Hartnell, Charles Thompson and Florence Thornton, Jas. Horman and Johanna Bayne, and Geo. F. Bateman and Ida E. Arneld.

DIVORCE MATTERS. DIVORCE MATTERS.

John T. Talbert yesterday filed his petition, asking divorce from Jane Talbert, nee Chase. He sets forth that after he had been married some time he enlisted in the United States army, and that after he had been sone eighteen months his wife gave birth to an filegitimate child, whom he believes belongs to James Diggs. He came back at the end of three years, but could not live with her, and he again enlisted, and while he was away she had another illegitimate child, which he thinks also belonged to James Diggs. He therefore thinks he is entitled to a divorce. The case will be heard in Julynext. will be heard in July next.

THE POST-OFFICE FRAUDS.

Hinds Held for a Further Hearing. When the post-office fraud cases were called according to adjournment before Commissioner Ingersol, at the Criminal Court-room, yesterda afternoon, Judge Fisher announced that Mr. Uhannel was still sick, and the case as to him was postponed for a week. The case of Hinds for corrupting clerks was then called.

The Commissioner said he had determined to hear evidence for the defense. After argument as to the character of the evidence for the defense, by Mr. Cook for the defense, and by Judge Fisher and Judge Spence, Mr. Cook offered evidence of the good character of the accused. The Commissioner held that such testimony was not proper on a preliminary examination. The Commissioner said that he did not desire to hear from the Government, but he would hear the defense. Col. W. A. Cook then argued the case, after which the Commissioner held the accused for an examination alone.

to this city and was for many years solicitor of the
Auditor's office of the Post Office Department.
He has been for many years an active practicioner
at the bar, and was distinguished for his great
learning and ability in his profession. He was
selected by the court as the successor of Mr. Cox
upon the resignation of the latter gentleman as
auditor of the court. He continued to discharge
the arduous duties of that office until his death.
He leaves a wife and three children and many
friends to mourn their loss. Mr. Leech was about
fifty years of age, but during the past three
years has been in bad health. He was in his office on Monday last attending to his duties, apparently in his usual health. His death was sudden and sutirely unlooked for by his family and
friends.

Pimples, Eruptiens, Rough Skin.

The system being put under the influence of Dr. Pierce's Golden Medical Discovery for a few weeks, the skin becomes smooth, clear, soft and velvety, and being illuminated with the glow of perfect health from within, true beauty stands forth in all its glory. The effects of all medicines which operate upon the system through the medium of the blood are necessarily somewhat slow, no matter how good the remedy employed. While one to three bottles clear the skin of pimples, blotches, eruptions, yellow spots, comedones or "grabs," a dozen may possibly be required to cure some cases where the system is rotten with servainous or virulent blood poisons. The cure of all these diseases, however, from the common pimple to the worst scrofula, is, with the use of this most potent agent, only a matter of time. Sold by dealers in medicines.

DR. SCHENCK'S STANDARD REMEDIES,
The standard remedies for all diseases of the
lungs are SCHENCK'S PULMONIC SYRUP,
SCHENCK'S PELMONIC SYRUP,
SCHENCK'S SEA-WERD TONIC and SCHENCK'S
MANDRAME PILLS, and, if takes before the lungs
are destroyed, a speedy cure is effected.
To these three medicines Dr. J. H. Schenck, of
Philadelphia, owes his unrivalled success in the
treatment of pulmonary diseases.
The Pulmonic Syrup ripens the morbid matter
in the lungs; nature throws it off by an easy expectoration, for when the phiegu or matter is
ripe a slight cough will throw it off, the patient
has rest and the lungs begin to heal.
To enable the Pulmonic Syrup to othis,
Schenck's Mandrake Pills and Schenck's SeaWeed Tonic must be freely used to cleanse the
stomach and liver. Schenck's Mandrake Pills
act on the liver, removing all obstructions, relax
the gall bladder, the bile starts freely, and the
liver is soon relieved.
Schenck's Sea-Weed Tonic is a gentle stimulant siver is soon relieved.

Schenck's Sea- Weed Tonic is a gentle stimulant and alterative: the alkali of which it is compared mixes with the food and prevents souring. It assists the digestion by toning up the stomach to a healthy condition, so that the food and the Pulmonio Syrup will make good blood; then the lungs beal, and the patient will surely get well if care is taken to prevent fresh cold.

All who wish to consult Dr. Schenck, either personally or by letter, can do so at his principal office, corner of Sixth and Arch streets, Philadelphia, every Monday.

Schenck's medicines are sold by all draggists throughout the country.

Ezekiel, 47th Chapter, 12th verse.

"By the rivers upon the banks thereof shall grow all trees for meat whose leaf shall not fade, and the fruit thereof shall be for meat, and the leaf thereof for medicine." Our great Redeemer has made a provision for the cure of discasses of man and beset, yet thousands upon thousands are overtaken with sickness, without suspicion that it is caused by mercury or other subtle poisons that are so freely used in many medicines and re-nestes of the present day.

A Walking Miracle.

AVERT, BERRHAN COUNTY, 1
MR. H. B. STEVENS:

Dran Sin: Though a stranger, I want to inform you what Vegetting has done for me.

Last Christmas Screenis made its appearance in my system—large ranking ulcers appearing on me as follows: One on each of my arms, one on my high, which extended to the sea, one on my head, which became so bad that two physicians came to amputate the limb, though upon consultation concluded not to do so, as my whole body was so full of Serofula that they deemed it advisable to cut the sore, which was painful beyond description, and there was a quart of matter run from this one sore. The physicians all gave me up to die, and said they could do no more for me. Both of my legs were drawn up to my seat, and it was thought if iding et up again I would be a cripple for life.

When in this condition I saw Vegettine and commenced taking it in March, and followed on with it until I had used sixteen bottles, and this morning I am going to plow corn, a well man. All my townsmen say It has miracle to see me round walking and working.

I sam a sufficient in the stratful disease. Scrofila, I prayed to the Lord above to take me out of this world, but as Vegettine more than ever to live, that I may be of some service to my fellowmen, and I know on no better way to aid suffering humanity than to inclose you this statement of my case. with an earnest hope that you will publish it, and it will afford me pleasure to reply to any communication which I may receive thereform.

I am, sir, very respectfully.

SCROFULA SCROPULOUS HUMORS.

SCROFULOUS HUMORS.

If VRGETINE will relieve pain, cleanes, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, is it not conciunive proof, if you are a sufferer, you can be cured? Why is this medicine performing such great curve? It works in the blood, in the circulating floid. It can be truly called the forest Elood Furtfer. The great source of disease originates in the blood; and no medicine that does not act directly upon it, to parify and renevate, has any just ciaim upon public attention. When the blood becomes lifeless and stagmant, either from change of weather or of climate, want of exercise, irragular diet, or from any other cause, the Vage-tink will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels and imparts atom of vigor to the whole bood. The convex of the convex fragedoms are more safe, more successful, in the cure of direase, than mineral medicines. Vagetture is composed of roots, barks and herbs, it is pleasant to take, and is perfectly safe to give an infant. In Scrotina the Vagetture has performed wonderful curves, where many other remedies have failed, as will be seen by the following unsolicited testimonial:

SAVED MY BOY'S LIPE.

Mm. Strvens:

Quincy, Mass., Feb. 18, 1871.

Dear Siz: Having used your Vegerine in my family with great success, I think it but right that you and the public should know it. Last spring my little boy was very sick indeed with inward Seconias. The glaids of the neck were very much swollen, and every one who saw him said he would not live long. He was very weak, being reduced very low. We were very anxious about him when we saw that the doctor did not help alm any after five weeks' frial. Hearing of your Vigering, I concluded to try I, and that conclusion savel my boy's life, I sincerely believe. After taking two betters of the Vascring the swelling on the nod to give it in like and as the swelling on the nod incely. He as well and the sore hat healed nicely. He as well as the core has healed nicely. He as well as the core has healed nicely. He as well as the core has healed nicely. He as well as the core has healed nicely. He as well as the core has healed nicely. He as well as the core has healed nicely. He has seen that the core has healed nicely. He has seen that he was cross and peevish, his food did not stay on his stousesh, and he did not steep long at a time. The gratitude I dwe you no pen can portray. Yours, with respect, QUINCY, MASS., Feb. 19, 1871.
